**CONTAINER DAMAGED:** Damage, Concealed Yes Container and packing damage corresponded to each other

---

## COMMODITY REPORT:

ITEM 1 OF 1

**NUM INSPECTED:** 1 **INVOICE VALUE:** \$1,500.00

Aluminum Fan Motor Cover, Part Number 89222, Serial Number 020609X1433 packaged in a single wall corrugated carton. The outer carton was dented in the lower right hand corner. The internal packaging showed no visible damage. Item was dented along the lower right side causing the grates adjacent to the dent to come in contact with the fan blades. The damage corresponds to the dent in the outer carton. I was told by the plant supervisor, Joe Smith, that box was delivered to its current location via a fork truck. Joe was unable to determine whether or not repairs would be possible at this facility.

---

## STATUS / REMARKS

**HOLDER'S SUGGESTED DISPOSITION:** Refused Pending Disposition **REPAIRABLE:** Unknown

**LOCATION COMMENTS:** inspection took place in the room adjacent to the receiving dock
